13.45-14:05	<b>Presentation: Creating a safe environment in hospital theatres</b>
	<p>How can operating theatres be made safer working environments for staff and patients? This session will look at best practice and how that can be spread across the NHS, including: access to high quality safety equipment and the danger of splashes; waste management; smoke evacuation; and safe handling.</p> <p>Proposed speakers:</p>
14.05-14.45	<b>Panel Session: Mind the implementation gap; The persistence of avoidable harm in the NHS</b>
	<p>The NHS estimates that there are around 11,000 avoidable deaths annually due to safety concerns. However, despite a range of international and national initiatives aimed at reducing avoidable harm, it remains a wide-scale problem. In this session panellist discuss why avoidable harm continues to persist in healthcare and how we tackle the implementation gap, the difference between what we know improves patient safety and how the new <i>Safety For All Staff Support Guide: a good practice resource following serious patient harm</i> can help improve practice.</p> <p>Proposed speakers:</p> <ul style="list-style-type: none"> <li>• Keith Conradi</li> <li>• Claire Cox</li> <li>• Angela Dempsey, Chief Nursing Officer, NHS Northamptonshire</li> <li>• Ian Lindsley</li> </ul>
